

We are actively monitoring the Covid19 / Coronavirus situation.

At Industrial Pallet Corporation, the safety and well-being of our employees will always be the priority. We have measures in place to push forward “business as usual” and will work closely with our partners to communicate any changes.

IPC understands the important role we play in the supply chain process during this critical time. IPC has been designated “Essential Business” by DHS and is authorized to remain open in the event of Local, State or Federal shutdown. We will continue to supply you with the same high-quality pallets and on-time deliveries that you have come to expect.

Public Health

We have a team dedicated to our response to this pandemic. We are closely monitoring updates from the [Centers for Disease Control and Prevention](#) and the [World Health Organization](#) regarding Covid-19

Employee Protection

We have taken steps to limit exposure to the virus. We have closed all our plants to visitors unless they are deemed essential to our operation. We are involved in regular communication with all our employees reminding them about the importance of proper hygiene, providing them with health education. We are also heeding the advice from the President and limiting all breaks and lunch gatherings to no more than 10 people at a time. In addition, we have staggered our shift start times to prevent a mass gathering before and after each shift.

Delivery to our customers

Please rest assured that we have plans in place to avoid any delays in shipping or production. Inventory has been ramped up and we are working closely with our suppliers to be sure that there are no interruptions in raw material. We are currently sitting on a couple of months of inventory and continue to grow it daily.

Our hearts go out to everyone impacted by this crisis.

Thank you for your continued support and partnership during these difficult times.

Brannon Crace
Director of Sales
Industrial Pallet Corp.
